1. Introduction

The Functional Requirement Document (FRD) outlines the functional aspects and behaviour of the web-based application Velocity Vehicles. It serves as a guide for the development, testing, and deployment teams to understand how the system is expected to function for end-users and admin dealers.

1.1 Purpose

This FRD defines the functional specifications and expected behaviours of the Velocity Vehicles platform. It serves as a contractual document among developers, designers, testers, and stakeholders, ensuring a clear understanding of the system before implementation.

1.2 Intended Audience

- Development Team
- Testing/QA Team
- UI/UX Designers
- Database Team
- Project Stakeholders
- Business Analysts

2. Functional Requirements

When the user types the URL, it should navigate to the Home page of the Velocity Vehicles website.

2.1 Home Page

The homepage is **scrollable** and dynamically reveals sections as the user scrolls. It is designed to be visually rich and highly interactive.

2.1.1 Top Navigation Bar

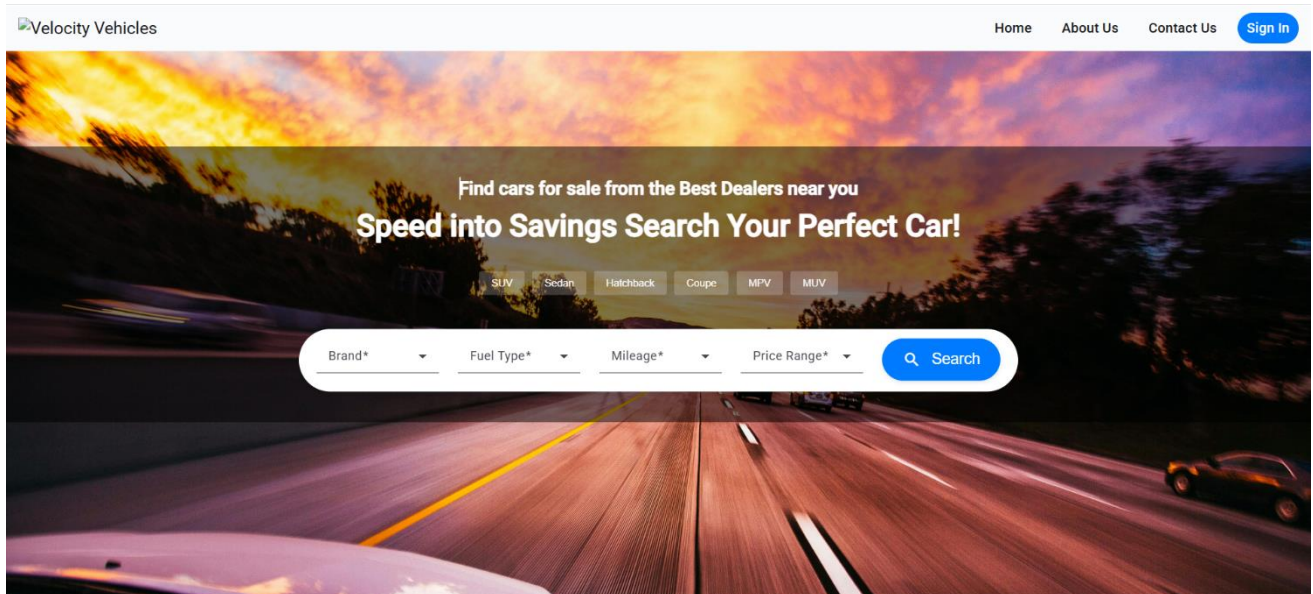

- Positioned as a sticky header, always visible.
- Contains:
 - **Logo:** Top-left corner.
 - Navigation Links: **Home, About Us, Contact Us, Sign In** (for both users and dealers).
- Fully responsive, collapses into a hamburger menu on mobile.

2.1.2 Landing Section

- Central slogan/tagline that represents the brand vision. Below the slogan, six **primary category buttons**:
 - **SUV, Sedan, Hatchback, Coupe, MVP, MUV**
- Each button, when clicked, dynamically reveals a set of filters:
 - **Brand Type** (e.g., Tata, BMW, Hyundai)
 - **Fuel Type** (Petrol, Diesel, CNG)

- **Mileage Range** (Min–Max, in kmpl)
- **Price Range** (Min–Max input)

The "**Search** " button is positioned on the right of the filter section and triggers a query to list all cars matching the criteria.

(Landing Home page screen is shown in the **Figure 2.1.2**)

Figure 2.1.2

2.2 Explore Our Premium Brands

- Follows immediately after the landing section.
- Contains the heading: "**Explore Our Premium Brands**".
- A set of **clickable brand cards** is displayed for visual branding and is then redirected to the selected Brand Page showing all the cars present with the dealers.

(Explore Our Premium Brands section is shown in the **Figure 2.2**)

- **Tata, BMW, Ford, Mercedes Benz, Hyundai, Mahindra, Toyota, Maruti Suzuki, Honda**
- Each card shows Brand Logo and Brand Name in stylized font.

Figure 2.2

2.2.1 Car Details Based on specific Brand.

- At the top of the page the selected Brand name is mentioned for user reference and clarity.
- Filter Section: For the user to refine their results, there is a sidebar with various categories, each with a dropdown of their own, that shows the various options available in that category when clicked.
- The categories in the sidebar as dropdown options are:

- Price range
- Vehicle type
- Fuel type
- Transmission Type
- Seating Capacity
- Mileage range
- Display Section: To the right of the sidebar, the entire page is the scrollable display section, which displays the cards for all the cars that match the filters of the user. Each card consists of details about the car such as its
 - Full Name
 - Rating
 - Vehicle Type
 - Price
 - Mileage
 - Transmission Type
 - Fuel Type
 - Engine
 - Power
 - “Check for More Details” button will redirect the user to the page of the specific selected car for the user to view all the details of the car.

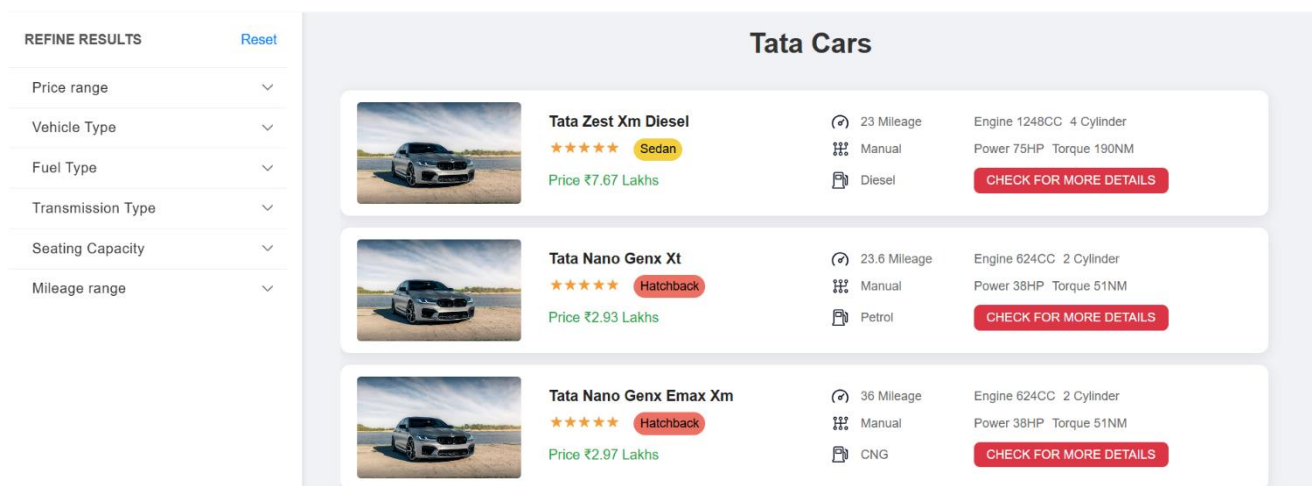

Figure 2.2.1

2.3 Explore All Vehicles Section

- Displays a catalogue/grid of all available vehicles in the system.
- Each card includes the following:
 - Image of the Car

- **Model Name**
- **Price** (in Rs.)
- **Mileage** (km/l or km/kWh)
- **Fuel Type** (Petrol, Diesel, CNG)
- **Transmission Type** (Manual or Automatic)
- The “View All” button will again redirect to the page with all the cars details which can be further filtered as per the requirements.
 - Cards are responsive and include a hover effect for more engagement.

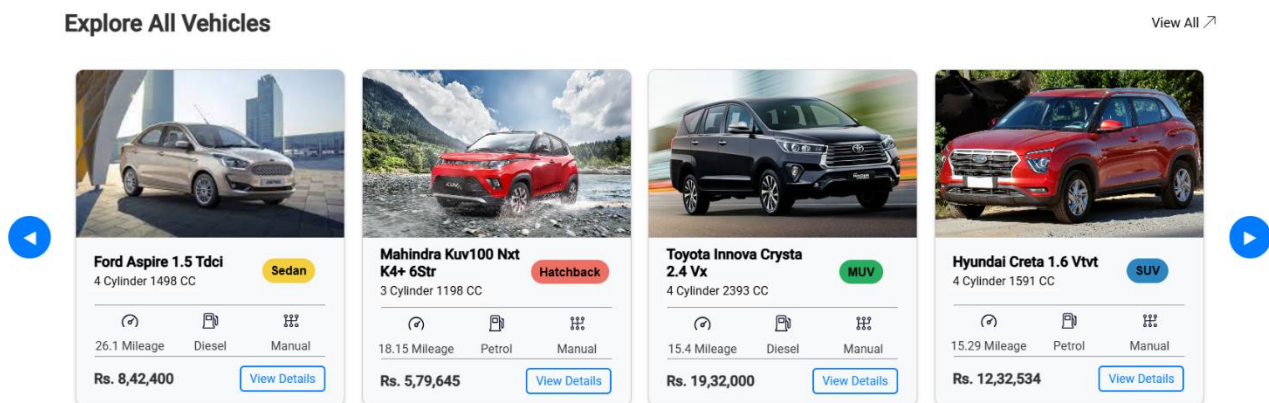

Figure 2.3

2.3.1 Selected Car Details

- When a user selects or clicks on a specific car from the Explore All Vehicles section or a filtered listing, they are redirected to the Car Detail Page. This page presents a comprehensive, visually organized view of the selected car model through a structured card-based layout as shown bellow:

Card 1: Car Image Carousel

- A high-resolution image carousel showing the picture of the car.

Card 2: Car Specifications

- A dedicated specification card listing the car’s technical and physical details - Engine(cc), Cylinders, Gears, Mileage, Power, Torque, Transmission, Fuel Capacity, Seating Capacity, Warranty, Fuel Type, Steering.

Card 3: Basic Details & Actions

- Positioned prominently near the top or top-right of the page containing Car Name, Brand Name, Showroom Price, etc.
- "Book Now" button leads to a booking and then allocating the car to the specific user.
- "Free Test Drive" button opens a form to schedule a test drive, asking for preferred time, location, and user contact details.

Card 4: Top Features of this car

This card presents a list of top features of the car like Advanced Ventilation System, Dual or Multi-Airbags, etc.

(Image of the page is shown below in **Figure 2.3.1**)

Card 5: Car Location

This card displays the location of the car present.

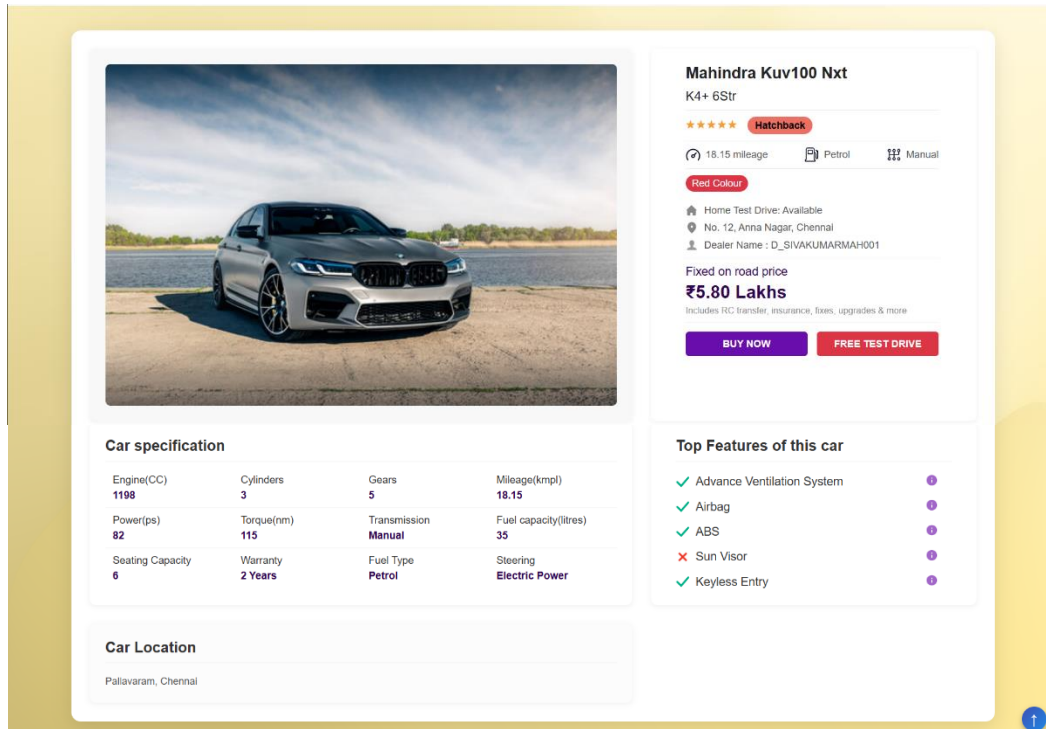

Figure 2.3.1

The Home Page then contains a section to display the list of Dealers associated with our Velocity Vehicles followed by the footer section as shown below in **Figure 2.3.2**.

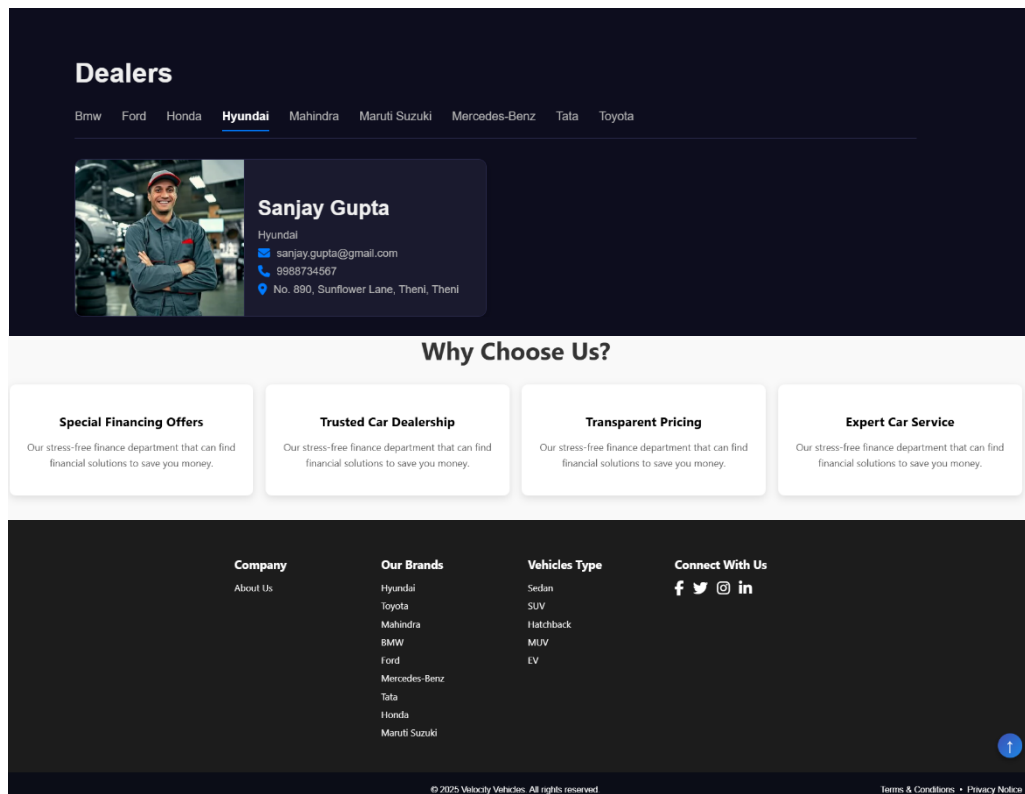

Figure 2.3.2

3. User

3.1 Customer

- For the customers the Sign In and login pages are opened as per the requirements to explore vehicles as shown in the **Figure 3.1.1** and **Figure 3.1.2**.

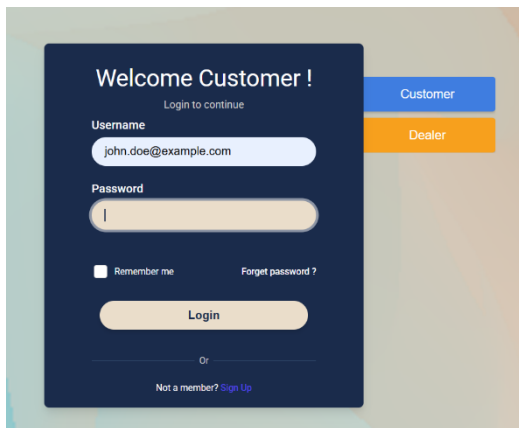

The image shows a customer login page with a dark blue background. At the top, it says "Welcome Customer !" and "Login to continue". There are two buttons: "Customer" (blue) and "Dealer" (orange). The login form includes fields for "Username" (with the example "john.doe@example.com") and "Password". There is a "Remember me" checkbox and a "Forgot password ?" link. A "Login" button is at the bottom. Below the login button, it says "Or" and "Not a member? Sign Up".

Figure 3.1.1

4. Responsiveness & Accessibility

- Fully responsive on all devices (desktop, tablet, mobile).
- Elements like filter panels collapse into accordions on smaller screens.
- All forms and navigation are keyboard accessible.

5. Summary

Velocity Vehicles aims to provide a seamless and efficient experience for users to explore and compare cars, while empowering dealers with the tools to manage and promote their inventory. With a secure backend, intuitive UI, and responsive design, this platform serves as a scalable auto dealership solution built with Java Spring technologies.
